

TWINNING DEGREE PROGRAMMES

World Class Degrees, Truly Asian Values

MALAYSIA

An Excellent Destination for Pursuing Higher Education

Developed over the past 30 years, our unique higher education system offers YOU an international qualification of your choice. You can choose to pursue the US, UK, Australian or Malaysian degree qualifications at a very competitive cost. You will at the same time benefit from an 'Asian' experience within Malaysia's multi-ethnic environment. Malaysia also provides you the opportunity to make acquaintances with existing international students from all over the world. These experiences and networks will give you a competitive advantage anywhere in a fast-evolving globalised world.

The peaceful, modern and fascinating Malaysia is located in the heart of South-East Asia, directly south of Thailand and north of Singapore.

At the beginning of 2009, there were more than 70,000 international students from more than 100 countries studying in Malaysia. These students pursue courses ranging from diplomas, degrees to PhDs at private higher educational institutions, public universities and foreign university branch campuses. This demonstrates the confidence of students from across the globe in choosing Malaysia as a preferred destination for acquiring an academic qualification.

Malaysia Welcomes International Students

Trans-national Bachelor's Degree Programmes

- a. '2+1' Twinning Degree Programmes
- b. Overseas Degree Pathway through Advanced Standing or Credit Transfer
- c. '3+0' Foreign Bachelor's Degree Programmes

Malaysia is acknowledged as one of the pioneers in this region in the development and promotion of trans-national Bachelor's degree programmes. Since the early 1980s, Malaysian private higher educational institutions have collaborated with reputable universities from countries like the United Kingdom, the United States, New Zealand and Australia. Unique degree programmes such as '2+1' twinning degrees (where students study 2 years in Malaysia and 1 year at the overseas host university) and '3+0' degrees (where the entire foreign university degree programme is taught in Malaysia) offer international students abundant overseas Bachelor's degree options that meet their budget and academic needs.

'2+1' Twinning Degree Programmes

In a '2+1' or '1+2' twinning programme, students can pursue either 1 year; 1½ years; 2 years; or 2½ years at a private higher educational institution in Malaysia, out of a 3-year degree programme before going to the twinning partner university overseas to complete the remaining modules of the course. Upon fulfilling the graduation requirements, the students would be awarded the partner university's degree qualification.

Malaysian educational institutions collaborate primarily with well-known universities from the United Kingdom, Australia, the United States, New Zealand as well as France.

Benefits of a Twinning Degree Programme

Students acquire a foreign university degree qualification with substantial savings on tuition fees and living expenses for the number of years spent studying in Malaysia. They also acquire the learning experience of two countries.

For example, if you enrol in Malaysia for an engineering twinning degree programme that offers three years of study in Malaysia with the last year in Australia (i.e. '3+1' twinning degree), you may save up to AUD60,000 (USD46,500) in tuition fees and living costs compared to when you do the entire 4-year degree in Australia! On top of that, you also have the learning experience of two countries.

Twinning Partner-University from Australia

► **KDU College (Petaling Jaya)** (www.kdu.edu.my)

Overseas University	Course Title	Duration (Malaysia & Overseas)
University of Tasmania, Australia	Bachelor of Laws	3+1 (Aust) Yrs

► **Metropolitan College** (www.metropolitan.edu.my)

Overseas University	Course Title	Duration (Malaysia & Overseas)
Curtin Universiti of Technology, Australia	Bachelor of Commerce (Accounting)	2+1 (Aust) Yrs

► **Taylor’s College (Petaling Jaya)** (www.taylors.edu.my)

Overseas University	Course Title	Duration (Malaysia & Overseas)
RMIT University, Australia	Bachelor of Applied Science (Information Technology)	2+1 (Aust) Yrs

► **Taylor’s University College** (www.taylors.edu.my)

Overseas University	Course Title	Duration (Malaysia & Overseas)
University of New Castle, Australia	Bachelor of Biomedical	1+2 (Aust) Yrs

Estimated exchange rate: USD1 = RM3.50 A\$1 = RM2.50 C\$1 = RM3.10 NZ\$1 = RM2.70 £1 = RM6.10

The Overseas Degree Pathway through Advanced Standing or Credit Transfer

'Advanced Standing' or credit transfer arrangements with universities from the UK, USA, Australia, Canada, etc. have been developed by private higher educational institutions in Malaysia since the early 1980s.

An 'Advanced Standing Programme' means that a private higher educational institution's internal diploma (or a particular degree transfer course) is recognised with 'advanced standing' entry status by one or more partner foreign universities, in terms of credits exemption given for advancing into their bachelor's degree programmes. Therefore, students who have completed a course with 'advanced standing' status can gain admission into the second or third year of the degree programme overseas.

Currently, besides the American Degree Transfer Programmes, there are also Australian Degree Transfer Programmes, UK Degree Transfer Programmes and Canadian University Transfer Programmes offered by private higher educational institutions in Malaysia.

As a pioneer in international education in this region, Malaysia offers access to more than 300 prestigious universities in the USA, UK, Australia, New Zealand and Canada.

Benefits of Advanced Standing Programmes

- Opportunity to acquire a degree qualification awarded by a foreign university
- Substantial cost savings
- Students have a wide option of universities and courses
- Students have the advantage of experiencing learning in two countries

Australian Universities

► **INTI International College (Penang)** (www.intipen.edu.my)

Overseas University	Course Title	Duration (Malaysia & Overseas)
Degree from Australia	Australian Degree Transfer Programme (Commerce)	1+2/2.5 (Aust) Yrs or 2+1/1.5 (Aust) Yrs

Degree from American Universities	American Degree Transfer Program (Engineering)	2+2 (US) Yrs

'3+0' Foreign Bachelor's Degree Programmes

A '3+0' foreign bachelor's degree programme is an extension of a twinning programme. Under a '3+0' arrangement, a bachelor's degree programme from a leading foreign university is conducted at a private higher educational institution in Malaysia. A student is therefore able to complete their course entirely in Malaysia.

Since 1998, many long-established Malaysian private institutions of higher learning have gained the confidence and trust of universities in countries like the United Kingdom, Australia, France and the United States. Consequently, these universities allow selected Malaysian private educational institutions to conduct their university degree programmes entirely in Malaysia. Upon graduation, students will be awarded a qualification from the foreign partner university.

An example of tuition fees for a 3-year UK Engineering degree in Malaysia is about USD13,100 (for 3 years) as compared to £9,000 (USD15,690) per year or about £27,000 (USD47,000) (for 3 years) in the UK.
